

# SenseHub® Dairy In-Line Somatic Cell Count Sensor

**Providing individual SCC results in under  
two minutes**

The SenseHub In-Line Somatic Cell Count (SCC) Sensor from MSD Animal Health provides somatic cell counts for individual cows at the milking point within two minutes of cupping – *automatically*.

SenseHub Dairy's SCC sensor works with any existing parlor type – fitting into your milking routine with no additional steps.

**Measure where it matters.**

# Freedom is **knowing you're actively gaining control** over your milk quality

- ✓ Promptly identify individual animals with high SCC
- ✓ Bulk tank SCC indications can be calculated via selected herd management system
- ✓ Investigate potential udder health issues
- ✓ Make better informed dry cow therapy decisions
- ✓ Improve milk quality and herd well-being
- ✓ The results can be displayed at the milking point based on Optical Warning Light (OWL) alerts as well as in absolute values for individual cows in select herd management systems.

SCC Optical Warning Light (OWL) alerts	
SSC level 0-150,000	Green
SSC level 150,000-200,000	Green, Orange
SSC level 200,000-400,000	Orange, Red
SSC level >400,000	Red, Light Blue

**Farm with more freedom**  
through a deeper connection to your animals
