

# SenseHub<sup>®</sup> Dairy In-Line MilkPlus Sensor

Actionable insights into your cow's milk quality and yield – *no matter which milking parlor type or brand* – with the SenseHub Dairy In-Line MilkPlus Sensor.

Monitoring critical milk data such as **yield, fat, protein, lactose, blood, and conductivity**, you have instant visibility into milk trends for individual cows and your entire herd.

**Measure** where it matters.

# Freedom is **knowing your herd production** – from every milking.

With milk reports and graphs generated by SenseHub Dairy's In-Line MilkPlus Sensors, farmers have shift, daily and lactation milk production insights so they can make more informed decisions to optimize productivity and animal well-being.

When combined with SenseHub Dairy behaviour monitoring and automation, farmers can improve workflow to *Farm with **more freedom***.

- ✓ Gain knowledge of your cow's milk production
- ✓ Make more informed farm management decisions
- ✓ Assess your nutrition and feeding strategy
- ✓ Data displayed via selected herd management systems

## Farm with **more freedom** through a deeper connection to your animals
